Fresh Perspective Edge v1.1

TRADINGVIEW INSTALLATION AND QUICK START

Before you begin

Access is attached to the **exact TradingView username** submitted with your purchase. Wait until your activation email confirms that access is active before trying to install the indicator.

Install on TradingView

1. **Sign in to TradingView**
   Use the same account and exact username you submitted at checkout.

2. **Open a chart**
   Open TradingView Supercharts for the market you want to analyze.

3. **Open Indicators**
   Select **Indicators, metrics, and strategies** at the top of the chart.

4. **Choose Invite-only scripts**
   Open the **Invite-only scripts** tab.

5. **Add the indicator**
   Select **Fresh Perspective Edge v1.1** to add it to your chart.

If the script does not appear: Refresh TradingView, confirm that the correct account is signed in, then check Invite-only scripts again.

Fresh Perspective Edge v1.1

ALERTS, SETTINGS AND SUPPORT

Set up BUY and SELL alerts

1

Open TradingView Alerts

Select the alarm-clock icon after the indicator is on your chart.

2

Choose the indicator

Under Condition, select **Fresh Perspective Edge v1.1**.

3

Receive both signal types

Select **Any alert() function call** for detailed BUY and SELL notifications.

4

Use confirmed signals

Signals are designed to alert once per bar close to help reduce intrabar noise.

Recommended starting setup

Market	NQ or ES	**Chart**	3-minute or 5-minute
Higher timeframe	15-minute	**Session**	9:30-11:30 a.m. New York
Minimum score	65	**Targets**	Target 1: 1R | Target 2: 2R

Troubleshooting

I cannot see the indicator: Confirm that your activation email says access is active, verify the exact username, sign out and back in, and refresh the chart.

I changed my TradingView username: Contact Fresh Trading Strategy so access can be moved to the new exact username.
